

Charitable Gift Annuity Rates

The income you receive from your charitable gift annuity is determined by your gift amount and your age(s) when you begin receiving payments. For single-life annuity rates starting at age 65, see the table below. For two-life annuity rates and other information, including charitable deductions, please contact us at legacy@kqed.org or 415.553.2230.

KQED uses the annuity rates approved by the American Council on Gift Annuities (ACGA). The ACGA reviews their rates at least every year, and they are subject to change. However, once you fund a charitable gift annuity the rate is fixed for the term of that charitable gift annuity.
